## CONTENTS

### VOLUME 41

July 1989

Progestosterone in Uterine and Arterial Tissue and in Jugular and Uterine Venous Plasma of Sheep. C. W. WEEMS, Y. S. WEEMS, C. N. LEE, and D. L. VINCENT.....

Sexual Differentiation of the Steroid Feedback Mechanism Regulating Follicle-Stimulating Hormone Secretion in the Syrian Hamster. S. M. YELLON, J. S. HUTCHISON, and B. D. GOLDMAN.....

Effects of Luteinizing Hormone on Superovulatory and Steroidogenic Responses of Rat Ovaries to Infusion with Follicle-Stimulating Hormone. M. A. OPAVSKY and D. T. ARMSTRONG.....

Developmental Potential of Rabbit Oocyte Matured in Vitro: The Possible Contribution of Prolactin. Y. YOSHIMURA, Y. HOSOI, A. IRITANI, Y. NAKAMURA, S. J. ATLAS, and E. E. WAL-LACH.....

Maternal Transfer of Photoperiodic Information in Siberian Hamsters. III. Melatonin Injections Program Postnatal Reproductive Development Expressed in Constant Light. THERESA H. HORTON, S. LYNN RAY, and MILTON H. STETSON.....

Effects of Gonadectomy and Steroids on Pituitary Gonadotropin Secretion in a Frog, *Rana pipiens*. SUSHAMA PAVGI and PAUL LIGHT.....

Adrenergic Stimulation of Inositol-Phosphate Production in a Genital Tract Smooth Muscle Cell Line. MARK PHILLIPPE and SHRIKAR BANGALORE.....

Bimodal Effects of Luteinizing Hormone and Role of Androgens in Modifying Superovulatory Responses of Rats to Infusion with Purified Porcine Follicle-Stimulating Hormone. D. T. ARMSTRONG, A. SIUDA, M. A. OPAVSKY, and Y. CHANDRASEKHAR.....

Disparity in the Response of Sex Steroid-Binding Protein and Corticosteroid-Binding Globulin to Thyroxine in the Primate. FRANK Z. STANCZYK, ROBERT M. NAKAMURA, and MILES J. NOVY.....

Development of an Enzyme-Linked Immunosorbent Assay for Goldfish Gonadotropin. OLIVIER KAH, ANDRÉ PONTET, JÉSUS NÚÑEZ RODRÍGUEZ, ANDRÉ CALAS, and BERNARD BRETON.....

Effects of Progesterone or Luteinizing Hormone on Folliculogenesis in Intact or Hypophysectomized Immature Hamsters. INKYO KIM and G. S. GREENWALD.....

Insulin-Like Growth Factors (IGFs) as Autocrine/Paracrine Regulators of Granulosa Cell Differentiation and Growth: Studies with a Neutralizing Monoclonal Antibody to IGF-I. JUDITH S. MONDSCHNEIN, SANDRA F. CANNING, DEBRA Q. MILLER, and JAMES M. HAMMOND.....

Production of Low Molecular Weight Chemoattractants for Leukocytes by Periovulatory Ovine Follicles. WILLIAM J. MURDOCH and RICHARD J. McCORMICK.....

Effect of Estradiol on Secretion of Luteinizing Hormone during the Follicular Phase of the Bovine Estrous Cycle. T. T. STUMPF, M. L. DAY, M. W. WOLFE, A. C. CLUTTER, J. A. STOTTS, P. L. WOLFE, R. J. KITTOCK, and J. E. KINDER.....

The Effect of the Antioxidant, Butylated Hydroxy Anisole, on Peroxide-Induced and Spontaneous Activity of the Uterus from the Pregnant Rat. P. H. CHEROUNY, R. B. GHODGAONKAR, G. H. GURTNER, and N. H. DUBIN.....

Decrease in Ovarian Platelet-Activating Factor during Ovulation in the Gonadotropin-Primed Immature Rat. L. L. ESPEY, N. TANAKA, D. S. WOODARD, M.J.K. HARPER, and H. OKAMURA.....

Extraocular Control of Photorefractoriness in American Tree Sparrows (*Spizella arborea*). FRED E. WILSON.....

Hamster Zona Pellucida Cannot Induce Physiological Acrosome Reactions in Chemically Capacitated Hamster Spermatozoa in the Absence of Albumin. JANE C. ANDREWS and BARRY D. BAVISTER.....

Nuclear Lamin Antigens Are Developmentally Regulated during Porcine and Bovine Embryogenesis. R. S. PRATHER, M. M. SIMS, G. G. MAUL, N. L. FIRST, and G. SCHATTEN.....

Stimulation of Phospholipid Turnover in Isolated Sea Urchin Sperm Heads by the Fucose-Sulfate Glycoconjugate That Induces an Acrosome Reaction. STEVEN E. DOMINO and DAVID L. GARBERS.....

On the Proluminal Movement of <sup>3</sup>H-Androgens across the Rat Epididymal Epithelium. T. T. TURNER, C. E. JONES, and M. S. RODDY.....

Anti-Idiotypic Antibodies Prevent Antibody Binding to Mouse Sperm and Antibody-Mediated Inhibition of Fertilization. CHRISTOPHER P. CARRON, ASKALE MATHIAS, and PATRICIA M. SALING.....

Sperm Antibodies in Vasectomized Men and Their Effects on Fertilization. RAJESH K. NAZ, JOAN DEUTSCH, TERENCE M. PHILLIPS, ALAN C. MENGE, and HARRY FISCH.....

Temporal and Topographic Changes in DNA Synthesis after Induced Follicular Atresia. GILBERT S. GREENWALD.....

Generation of Reactive Oxygen Species, Lipid Peroxidation, and Human Sperm Function. R. JOHN AITKEN, JANE S. CLARKSON, and SIMON FISHEL.....

August 1989

EXCEPTIONAL PAPER-RAPID PUBLICATION

Sex Preselection in Rabbits: Live Births from X and Y Sperm Separated by DNA and Cell Sorting. LAWRENCE A. JOHNSON, JAMES P. FLOOK, and HAROLD W. HAWK.....

Ontogeny of Androgen Receptors in Fetal Guinea Pig Brain. KAREN R. TOYOOKA, PETER B. CONNOLLY, ROBERT J. HANDA, and JOHN A. RESKO.....

|                                                                                                                                                                                                                                                                                                                                       |            |                                                                                                                                                                                                                                                                       |            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>The Effects of Pheromonal Stimuli on Estrus and Peripheral Plasma Estradiol in Female Gray Short-Tailed Opossums (<i>Monodelphus domestica</i>). BARBARA H. FADEM .....</b>                                                                                                                                                        | <b>213</b> | <b>In Vitro Fertilization and Embryo Transfer in the Rhesus Monkey. DON P. WOLF, CATHERINE A. VANDEVOORT, GESA R. MEYER-HAAS, MARY B. ZELINSKI-WOOTEN, DAVID L. HESS, WILLIAM L. BAUGHMAN, and RICHARD L. STOUFFER .....</b>                                          | <b>335</b> |
| <b>The Metabolism of Acetylcarnitine and Acetate by Bovine and Hamster Epididymal Spermatozoa. KERRY A. BRUNS and EDMUND R. CASILLAS .....</b>                                                                                                                                                                                        | <b>218</b> | <b>Immunological Characterization and Immunocytochemical Localization of a Progesterone-Dependent Cat Endometrial Secretory Protein. HAROLD G. VERHAGE, ROBERT A. BOOM-SMA, PATRICIA A. MAVROGIANIS, WEIGUO LI, ASGERALLY T. FAZLEABAS, and RANDAL C. JAFFE .....</b> | <b>347</b> |
| <b>Oral Administration of Estradiol to Young C57BL/6J Mice Induces Age-Like Neuroendocrine Dysfunctions in the Regulation of Estrous Cycles. STEVEN G. KOHAMA, CHRISTOPHER P. ANDERSON, HEINZ H. OSTERBURG, PATRICK C. MAY, and CALEB E. FINCH .....</b>                                                                              | <b>227</b> | <b>Effects of Ovarian Tissue Reduction on the Menstrual Cycle: Persistent Normalcy after Near-Total Oophorectomy. DOUGLAS R. DANFORTH, CLAUDIO F. CHILIK, ROY HERTZ, and GARY D. HODGEN .....</b>                                                                     | <b>355</b> |
| <b>Progesterone Implants Extend the Capacity for 4-Day Estrous Cycles in Aging C57BL/6J Mice and Protect against Acyclicity Induced by Estradiol. STEVEN G. KOHAMA, CHRISTOPHER P. ANDERSON, and CALEB E. FINCH .....</b>                                                                                                             | <b>233</b> | <b>Identification of a Sperm Nuclear Annulus: A Sperm DNA Anchor. W. STEVEN WARD and DONALD S. COFFEY .....</b>                                                                                                                                                       | <b>361</b> |
| <b>Detection of Phospholipase A<sub>2</sub> in Human Spermatozoa. P. ANTAKI, P. GUÉRETTE, A. CHAPDELAINE, and K. D. ROBERTS .....</b>                                                                                                                                                                                                 | <b>241</b> | <b>Specificity of Epidermal Growth Factor Action on Maturation of the Murine Oocyte and Cumulus Oophorus in Vitro. STEPHEN M. DOWNS .....</b>                                                                                                                         | <b>371</b> |
| <b>Ovarian Follicular Dynamics in Heifers during Early Pregnancy. O. J. GINTHER, L. KNOPF, and J. P. KASTELIC .....</b>                                                                                                                                                                                                               | <b>247</b> |                                                                                                                                                                                                                                                                       |            |
| <b>Effects of Induction Versus Prevention of Hibernation on Reproduction in Captive Male and Female Woodchucks (<i>Marmota monax</i>). P. W. CONCANNON, L. A. FULLAM, B. H. BALDWIN, and B. C. TENNANT .....</b>                                                                                                                      | <b>255</b> | <b>September 1989</b>                                                                                                                                                                                                                                                 |            |

The undersigned hereby affirm that this manuscript entitled

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

represents original, unpublished material that is not under editorial consideration elsewhere. The studies described herein were performed in accordance with *Guiding Principles for the Care and Use of Research Animals* promulgated by the Society for the Study of Reproduction. The undersigned agree to honor page charges (members, \$50/page; nonmembers, \$75/page) if the manuscript is published. The undersigned also attest that those individuals or institutions named in the *Acknowledgments* are aware that their names appear.

The undersigned relinquish to the association all control over this material such as rights to make or authorize reprints, to reproduce the material in other association publications, and to grant the material to others without charge in any book.

The undersigned grant and assign exclusively to the association for its use any and all rights of whatsoever kind or nature now or hereafter protected by the copyright laws (common or statutory) of the United States and all foreign countries in all languages in and to the above-named article, including all subsidiary rights. The association, in turn, grants to each author the right of republication in any book of which she/he is the author or editor, subject only to giving proper credit in the book to the original journal publication of the article by the association.

All authors must sign.
